

We can fix healthcare and we need to start now.

Every year, it gets harder and harder to keep up with skyrocketing healthcare costs. Insurance and drug companies are raising prices, cutting benefits and leaving more Californians uninsured—but we can change this!

SECURE, AFFORDABLE HEALTHCARE FOR EVERYONE

We need *real* healthcare reform. California needs a health care system that would provide secure, affordable healthcare for *everyone* through the establishment of a non-profit health care plan for all Californians.

SINGLE PAYER: EFFICIENT, HIGH QUALITY, AFFORDABLE HEALTHCARE

- All Californians would have comprehensive health benefits, including medical, hospital, preventive care, prescription drugs, dental, vision and more.
- Everyone would keep the freedom to choose their doctors and other healthcare providers.
- There would be uninterrupted coverage, even when laid off or out of work.
- Single payer could save California as much as \$8 billion a year on healthcare costs.

Get involved and help us spread the word about the need for *real* healthcare reform.

We can give you information to share with your family, friends, neighbors and co-workers.

Contact us, *Single Payer San Joaquin*, to find out how you can help us build a broad coalition of Californians to support secure, affordable healthcare for everyone.
